MULTI FUNCTION PATTERNS

ARIMA

DC Pump with Rain Shower Water Heater

LWH-ARIMA DC-RMB

- Matt Black C/W Rain Shower
 - Water Heater
- WM : 814 EM : 857

DC Pump Water Heater

LWH-ARIMA DC-MB

- Matt Black
 - Water Heater
- WM : 608 EM : 640

LWH-ARIMA DC-PW

- Pearl White
 - Water Heater
- WM : 608 EM : 640

Non Pump Water Heater

LWH-ARIMA E-MB

- Matt Black
 - Water Heater
- WM : 366 EM : 385

LWH-ARIMA E-PW

- Pearl White
 - Water Heater
- WM : 366 EM : 385

CASA

DC Pump with Rain Shower Water Heater

LWH-CASA-DC-RMB

- Matt Black C/W Rain Shower
 - Water Heater
- WM : 835 EM : 879

LWH-CASA-DC-RST

- Silver titanium c/w rain shower
 - Water heater
- WM : 835 EM : 879

DC Pump Water Heater

LWH-CASA-DC-MB

- Matt Black
 - Water Heater
- WM : 629 EM : 662

LWH-CASA-DC-ST

- Silver Titanium
 - Water Heater
- WM : 629 EM : 662

Anti-Scalding System & Earth Leakage Current Breaker

Water heater with Special Tank material with hydronic flow turbulence round tank, using utmost welding techniques to prevent leakage and providing fast efficiency in heating.

Splash Proof IP25 Protection

Prevents splashes that occur during the shower from penetrating the casing and affecting the electrical circuit inside.

Auto Flow Switch Prevents Overheating Caused by Blockage

Water Heater Flow Switch System to ensure that there is always sufficient water flow before the heating element is activated to prevent extremely hot water that may cause scald user also Prevent Overheating Caused by Blockage.

Booster Pump Function

When the power supply is ON, the water supply flow-through 3 in 1 valve while open position if the water flow rate is not sufficient to activate the flow sensor, Water Heater Booster Pump Function will help to increase the incoming water flow rate. Once press the pump button to activate the booster pump function. The booster pump function will help to increase the incoming water flow rate.

Eco-Friendly Technology

Built-in Lightning Surge Protector (ELCB)

High-Quality Internal Wiring

With the High-quality internal wiring to ensure long term reliability and safety of the whole electrical system.

DPDT Protection

DP: Double Relay Highly Sensitive Electronic ELCB, Cut-off both Live & Neutral Power Supply, Prevent Electrocutation & Lighting.

DT: Double Thermal Safety Protection

- 55°C Anti- Scalding Thermal Cut Out.
- 90°C Prevent Ad-normal Overheat Thermal Cut Out.

Built For Durability

Energy Saving
